Do you qualify? LaCHIP uses the income amounts below to see if a child qualifies for low-cost or no-cost LaCHIP coverage. Incomes of grandparents or stepparents living in the home are not counted.

It's a fact that kids with health insurance live healthier lives.

LaCHIP offers low-cost or no-cost health care plans for uninsured kids up to age 19. Eligibility is based on family size and income. A family of four can earn as much as \$55,000 and still qualify. **If you did not qualify in the past, you may qualify now because of the increased income amounts.**
